Ø 2"

Pressione Max : 10 bar
Pressione min di controlavaggio : 2,5 bar
Portata Max consigliata : 416,6 lt/min (25 m³/h)
Superficie filtrante : 1061 cm²

Max Pressure : 145 psi
Min. Backflushing pressure : 36,25 psi
Max Flow recommended : 110,03 gal/min
Filtering area : 164,47 sq.in

Ø 3"

Pressione Max : 10 bar
Pressione Min di controlavaggio: 2,5 bar
Portata Max consigliata : 583,3 lt/min (35 m³/h)
Superficie filtrante : 1061 cm²

Max Pressure : 145 psi
Min Backflushing pressure : 36,25 psi
Max Flow recommended : 154,04 gal/min
Filtering area : 164,47 sq.in

● I filtri a dischi Plastica ALFA sono anche dotati di un sistema che trasferisce all'acqua un movimento elicoidale, il nuovo Sistema VORTIX, che convoglia le impurità sulle pareti del filtro permettendo così di ridurre notevolmente il numero di lavaggi e quindi il consumo di acqua e di energia.

● Plastica Alfa disk filters are also provided with a device causing an helical movement of the water, the new Vortex system that makes the impurities deposit on the inside wall of the filter reducing this way the number of washings and consequently the waste of water and energy.

● Les filtres à disques Plastica Alfa sont doués d'un système qui induit un mouvement hélicoidal à l'eau, le nouveau Système Vortex, qui canalise aussi les impurités vers les parois du filtre en permettant de réduire considérablement la quantité des nettoyages et ainsi la dépense d'eau et d'énergie."

● Los filtros de discos Plastica ALFA también están dotados de un sistema que traslada al agua un movimiento helicoidal, el nuevo Sistema VORTIX, que convoya las impurezas sobre las paredes del filtro permitiendo así de reducir notablemente el número de lavados y por lo tanto el consumo de agua y energía.
